

**Situation 01:**

My daughter is always online. She spends most of her time chatting to friends on the Internet and she stays up late. She can't wake up early the next day, she's always late for school and she constantly feels exhausted.

**Option 1**

Remove all her devices for internet access. Allow access only during weekends.

**Option 2**

Set goals and as long as she meets my standards I can let her continue her internet habits.

- a. what are the two options?
- b. what are the advantages of each option?
- c. what are the disadvantages of each option?

**Situation 02:**

My twelve-year-old niece is going to acquire her first internet access device. Which one should she buy?

**Option 1**

Tablet

**Option 2**

Laptop

- a. what are the two options?
- b. what are the advantages of each option?
- c. what are the disadvantages of each option?

**Situation 03:**

My thirteen-year-old nephew has just joined a basketball team that consists of much older kids aged sixteen to twenty-one. Now, he's got many 'friend requests' on his facebook account by all his new teammates. Should he accept them?

**Option 1**

Keep his facebook account only for his classmates and peers

**Option 2**

Accept all the friend request irrespective of age

- a. what are the two options?
- b. what are the advantages of each option?
- c. what are the disadvantages of each option?

**Situation 04:**

A teenage friend of mine has been a victim of cyberbullying for two weeks now.

**Option 1**

Tell his parents

**Option 2**

Try to persuade him to close all his Social Network accounts

- a. what are the two options?
- b. what are the advantages of each option?
- c. what are the disadvantages of each option?
